

## **Abstract**

Operational Art as the Security Studies: Its Implication and Necessity.

KITAGAWA, Keizo (Director, National Security and Strategic Studies Office, JMSDF Command and Staff College)

Operational Art is the concept which connects the strategy and the tactics. It enables the military intellectual attitude in three aspects based on the understanding of both military and non-military areas; Doctrine development, operation/campaign planning and mission command.

Understand the significance and the strategic context of the Operational Art will enrich the Security Studies of Japan and acquire the common language and tool in the international arena.
